# HUDSON SOFTWORKS

About Me

Hello! My name is Tyler Hudson and I am an aspiring web developer. I am currently particpating in the Georgia Tech Full Stack coding bootcamp with a goal to complete the course at the end of 2022. I have a Bachelors degree in Business from the University of South Carolina. I love the challenge coding provides in the addition to being able to build something with my own two hands. If you're looking to grow your team and think I may be a good fit please take a moment to look at my work and resume below!

Outside of coding and honing my development skills I love to spend time with my Fiancee and our Siberian husky named Luke. I am an avid PC gamer and car enthusiast at heart. The coolest car I have had the opportunity to drive so far has been a 2019 Porsche 911 Carrera GTS and my dream car would be a Porsche 911 Carrera GT3 RS. I work well in a team setting and I enjoy making friends with those around me. I enjoy tinkering, fixing, and building things.
